EXPERIENCES

Milaknight

 Jun 2024 - Present

 UAE, Remotely

 mila-knight.com

- As a Web Developer at Milaknight, I design, build, and deploy dynamic, client-focused websites and web applications using modern front-end and back-end technologies with my team. My expertise lies in crafting responsive, visually engaging interfaces with HTML5, CSS3, JavaScript (ES6+), and advanced libraries like jQuery and GSAP for smooth animations and interactions. I use Bootstrap 5 to streamline responsive layouts while ensuring cross-browser compatibility and mobile-first optimization.
- Built 10+ client websites from concept to launch, adhering to strict deadlines and brand guidelines.
- Enhanced user experiences with GSAP animations and jQuery-driven interactivity to increase engagement.
- Optimized site speed, SEO, and accessibility while managing seamless server deployments.
- Collaborated with designers to transform ideas into functional and pixel-perfect websites.

Webooo

 Jan 2024 - Apr 2025

 KSA, Remotely

 webooo.tech

- Built 20+ client websites from concept to launch, adhering to strict deadlines and brand guidelines.
- Collaborated with designers to transform Figma/Adobe XD prototypes into pixel-perfect, functional websites.
- I thrive in fast-paced agency environments, balancing creativity with technical precision to deliver high-quality digital solutions. Passionate about solving complex challenges and staying ahead of industry trends to drive measurable results for clients.

TeleWorx

 Jan 2021 - Apr 2024

 Egypt, Cairo

 teleworx-eg.com

- Design and develop creative and complex landing pages from concept to final pixel-perfect designs using HTML, CSS, JavaScript, Bootstrap and jQuery.
- Optimize landing pages for maximum conversion by analyzing user behavior and implementing UX best practices.
- consistently received positive feedback and reviews from internal stakeholders.
